
Casa Brigitte

2 bedroom small house in the old town with terrace views

Vejer de la Frontera, Cádiz, Andalucía

Casa Brigitte is a light and picturesque two bedroom apartment with a rooftop terrace with panoramic views just a one minute walk from the emblematic Plaza de España. On a quiet pedestrian cobbled street this is a tranquil relaxing place to stay.

The space

Casa Brigitte is a small apartment accessed from a cobbled pedestrian street. There are steps coming up from the plaza to get here. The ground floor has the living room, two bedrooms and a bathroom off the living room. This space has air conditioning. The bathroom is fully equipped with a high quality shower, two basins and elevated toilet. We climb a flight of stairs to the kitchen and the rooftop terrace. The kitchen has a counter style table and is fully equipped with dishwasher and washing machine. From the kitchen there is direct access to the terrace.

Terrace

The terrace is a large 30m². space with panoramic views of Vejer and the countryside. The terrace has a table with two benches and cushions for relaxed seating.

Kids

Unfortunately the house is not suitable for children due to the steep staircase and low parapets on the terrace.

Location

The Callejon Oscuro is in the heart of the old town. The street is entirely cobbled as is the whole quarter around it. There are steps leading up to the street and we advise it is not suitable for anybody with mobility problems. Casa Brigitte is just a 1 minute walk from the emblematic Plaza de España with its monuments and palm trees and a 2 minute walk to the historic Castle and Visigothic church. This quarter of town is almost completely pedestrian, some residents are allowed to drive in but traffic noise is limited.

We advise you that all the streets of the historical center of Vejer are narrow and sometimes complicated to drive around

Parking

You can unload suitcases about 100m. away in the Arco de la Villa or in the Plaza de España in a short stay (15mins.) reserved area for hotels. There is a public parking area 200 meters from the house and there is a paid covered car park (Parking La Corredera) the same distance away. In July and August vehicle access to this area is occasionally cut off from all sides due to concerts or festivities around the Plaza or near the Church.

CALIFACASAS

Management

Casa Brigitte is managed by Califa Casas on behalf of the owners. The Califa brand guarantees a trouble and stress free stay in Vejer. We own 3 hotels locally, 4 restaurants (including the iconic Jardín del Califa) and Vejer's only rooftop bar with panoramic terrace.

You will be met by Mercedes on arrival and she will escort you to the house and show you around. Mercedes Ramírez manages the house and she is on call throughout your stay as are the staff of Hotel La Casa del Califa. Mercedes has been managing the Hotel Madreselva for the Califa group for the last 8 years and now dedicates herself to this project.

Mercedes says "For me Vejer is the most beautiful town in this wonderful area that I live in. I am starting this new project with lots of enthusiasm after spending the last few years managing a nearby hotel. One of my hobbies is travelling, I am fascinated by different landscapes, cultures and of course food! I also love to meet people from other countries and exchange ideas and culture. I am wishing you a happy and pleasurable stay with us."

Table
Sofa and cushions

About Vejer

Vejer is situated at 200m. above sea level and is just a few km. from the beaches of El Palmar, Trafalgar Bay or Los Caños de Meca. Vejer itself is

made up of 2 parts, the old medieval quarter and the newer part of town carefully designed in the style of the 'pueblos blancos' of the region. Surrounded by large swathes of agricultural land growing sugar beet, sunflowers and wheat Vejer has a lot of land given over to the grazing of the local 'retinto' cattle. Vejer overlooks both the Atlantic coastline and the 'Las Breñas' Natural Park a 5,000ha. forest of pine wood running down to the coast and the 'Marismas' Natural Park a smaller nature reserve through which the Barbate river runs and which is home to an important collection of birdlife. Both parks have walking trails running through them and are perfect for day walks. Vejer has many viewpoints overlooking both the coastline & the cork oak studded hills of the 'Alcornocales' Natural Park one of Spain's most important nature reserves.

A short walk away is the roman aqueduct of Santa Lucia, with a water supply that feeds the small lush valley nearby where avocados, pomegranate & other semi-tropical fruits are grown.

A myriad of walking trails & wider cañadas (droving trails) run through the local countryside. The terrain is hilly although not steep, moderate fitness is required for cyclists wanting to cycle to the beautiful town of Medina Sidonia or to visit the fishing port of Conil for example.
